

## Information package: Getting married at Helsinki Airport

Every couple and wedding is different, and even at the airport you can tailor a special day just for you. This information package contains tips for arranging a successful wedding in the international atmosphere of Helsinki Airport. Follow the steps below and your wedding arrangements will soon be ready!

### 1. Examination of impediments to marriage

Request an examination of impediments to marriage from the Digital and Population Data Services Agency sufficiently in advance of the planned wedding day. Please note that this examination is only valid for a limited time. Read the instructions in more detail and check the time limits [on the website of the Digital and Population Data Services Agency](#).

### 2. Travel arrangements

If you are leaving for your honeymoon immediately after the wedding, please make the necessary travel bookings. You can have a wedding ceremony at the airport even if you are not going to travel afterwards.

#### Changing your last name

Please note that the Passport Act obligates Finnish citizens to ensure that their personal details match the information recorded in the Population Information System. If your new last name has not yet been processed by the Digital and Population Data Services Agency at the time of departure, you must make the travel booking with your old last name. If you are leaving for your honeymoon later, after the name change has been processed, the travel booking and passport must have your new last name.

### 3. Wedding officiant booking and witnesses

Book a wedding officiant and also agree on a schedule with the witnesses. At least two witnesses must be present for the marriage to be legally binding. The officiant can be, for example, the Airport Chaplain or a civil officiant. Agree on the wedding ceremony directly with the officiant. [Wedding officiants](#)

- A wedding ceremony officiated by the Airport Chaplain is free of charge for the couple.
- Read more about church weddings [on the website of the Evangelical Lutheran Church of Finland](#) (in Finnish).

The Airport Chaplain has their own access permit for the area, which means that they will not need anyone to accompany them.

#### 4. Booking the VIP service

Finavia's VIP services are responsible for the airport's VIP services and practical arrangements for the wedding day. With the VIP service, you can tailor a wedding package that works for you using the following **paid services**.

  - Visitors to the airport (e.g. witnesses, civil officiant, photographer, etc.) must always have a person accompanying them in the airport's security-controlled areas. At the end of the event, visitors will also be accompanied out of the gate area. The couple can move around the terminal independently in the area from which their flight is departing during the same day.
  - Airport visitors are subject to the same security control rules as passengers. You can read the instructions [on our website](#).
